

Oak Class – Year 6 – Terms 5 & 6 – 2017 - 2018

English

We will study a wide variety of text types linked to different themes.

We will particularly focus on explanations, persuasive leaflets, historical recounts, play scripts, and stories based on quests.

Maths

We will initially start by revising for the May SATS. We will then be finish the year by looking at Ration and Proportion, Statistics, and Geometry. We will also look at mathematical investigations.

Science

The focus for science will be humans. We will study the digestive system and the cardio vascular system. We will also look at the way nutrients are transported around our bodies.

Religious Education

During RE lessons, we will develop our understanding of the Islam and how their holy text guides the life of the faith's followers.

Geography/History

During these two terms we will consider where Greece is and its climate. We will also study traditional Greek life and consider how Ancient Greece impacts on our lives today.

Ancient Greece

French

The children will be continuing to study French with a specialist teacher.

PSHE

The areas we will consider during the Summer Terms are, Healthy Bodies, Healthy Minds, and Ready, Steady, Go (Preparation for Secondary School).

Computing

We will use the new laptop computers in a variety of ways this term. Sometimes using them for internet research and at other points to analyse data in a variety of ways.

Physical Education

In PE this term we will focus on a athletics and striking and fielding games. In addition, PH Sports will continue to coach the children on a Thursday.

Music

Music will continue to be taught by Mrs. Laurence. Throughout this work the children will continue to develop their knowledge and understanding of how to read and write music.

Art/DT

Art will be look at a variety of different skills required to make final products. In DT we will also be making marble runs using cutting and sawing techniques.
