

Equality Information Template 2018-19

Dilton Marsh Church of England Primary School

Introduction

Dilton Marsh Church of England Primary School is committed to ensuring that everyone is treated fairly and with respect as we want our school to be a safe and inspiring learning environment for all our pupils. This school recognises that people have different needs and we understand that treating people equally does not always involve treating everyone the same. Dilton Marsh Church of England Primary School creates inclusive processes and practices where the varying needs of individuals can be identified and met.

This document explains how we show our commitment to equalityⁱ for our school population and how we plan to tackle inequalities that may impact at school.

Celebrating our Successes

- *In 2017/18 we increased the involvement of girls and boys in sport by a specifically targeted extracurricular club for those children who had low level participation and low confidence in sport. This was a twelve week course which 24 pupils attended.*
- *In 2017/18 we increased the participation under-represented groups in extracurricular sport by providing external coaches. We subsidised and targeted disadvantaged children for these clubs. 20 children attended a weekly session which ran over two terms.*
- *We have increased the understanding and confidence of pupils to recognise, address and report bullying - including the use of racist and anti-LGBT discriminatory language. This has been done via anti-bullying awareness in the form of focused weeks, values work in PSHE. An ethos of no-tolerance for bullying has led to a decrease in incidents of bullying by pupils during the last 12 months.*
- *We have increasing pupils' knowledge and understanding of the different faiths and beliefs in Britain today, and supporting individual pupils in the development of their sense of identity and belonging. In October 2017 the school obtained an Outstanding judgement by SIAMS.*

Priorities for the Year 2018/9

Sex (Gender) – Boys and Girls

The underachievement of boys compared with girls persists both nationally and in Wiltshire. Nationally the gap is 8 percentage points, which has remained the same as 2016 with 65% of girls achieving the expected standard in all of reading, writing and mathematics compared to 57% of boys.

Two thirds of the gender gap in achieving the expected standard in Reading at age eleven is attributable to the fact that boys have lower levels of language and attention at age five. This school knows that intervention targeting early language and attention have potential for improving outcomes for all children. Boys benefit from such interventions because they are more likely to have these problems to begin with.ⁱⁱ

Minority Ethnic Pupils

Many minority ethnic groups of pupils do well but there are also groups where underachievement persists.

Very small numbers of minority ethnic pupils in Dilton Marsh Church of England Primary School mean that individual pupil-targeted approaches must be used to identify both underachievement, and to celebrate successes. LA and national attainment data provides a valuable source of information to identify potential areas of concern.

Black Caribbean Pupils and Mixed White/Black Caribbean Boys

National and LA data has highlighted concerns about the attainment of Black Caribbean pupils and Mixed White/Black Caribbean boys. This national attainment gap has remained relatively constant for the last 30 years despite a range of initiatives.

Wiltshire Key Stage 2 data for 2017 shows lower attainment for these groups, and also for 'Black Other' and 'Black African' pupils. When and as appropriate Dilton Marsh Church of England Primary School will work closely with the LA to implement proven strategies to raise attainment during the primary school years.

Gypsy/Roma/Traveller Pupils

Gypsy/Roma and Irish Traveller pupils are the lowest achieving ethnic groups.

Nationally, 16% of Gypsy/Roma pupils and 20% of Irish Traveller pupils achieved the expected standard. While the overwhelming majority of Wiltshire Gypsy/Roma/Traveller pupils choose to attend primary school until the end of Year 6, it remains a concern that a majority of Wiltshire Gypsy/Roma and Traveller families choose to home educate their children during the secondary school years.

A House of Commons Briefing Paper (September 2017) reported that education issues for Gypsies and Travellers include prejudice, discrimination and discriminatory attitudes. The issues also include the schools' responses to discrimination, and high levels of self-exclusion from mainstream education because of discrimination.ⁱⁱⁱ

National research published in 2018 suggests there has been a significant increase in the number of Gypsy/Roma and Irish Traveller children who are being cared for by local councils. The data shows an increase of 900% for the numbers of Gypsy/Roma children and 400% for Irish Traveller children since 2009. One of the reasons suggested is that Gypsy/Roma and Traveller families are less likely to be offered or to access early help and support and this is important as it is an area in which schools are able to help.^{iv}

English as an Additional Language

Nationally, 62% of pupils for whom English is known to be their first language achieved the expected standard in the Key Stage 2 assessments. This compares with 61% of pupils for whom English is an Additional Language and 62 per cent for All Pupils.

For Wiltshire pupils, the attainment of pupils whose first language is other than English matched the national results with 61 per cent of pupils achieving the expected standard. There was an attainment gap of 3 percentage points between Wiltshire First Language English pupils and England First Language English pupils as only 59 per cent achieved the expected standard.

It should be noted that children with EAL have widely varying levels of English proficiency. Some children have no English and some are fluent multilingual English-speakers and may have lived in English-speaking countries or have been educated in English throughout their childhood. Attainment is also affected by first language; for example, there are significant differences between Tamil and Chinese speakers, who, on average, perform better than Pashto and Turkish speakers. In addition, prior education and arrival time impacts on attainment.^v The Wiltshire Ethnic Minority and Traveller Achievement Service advise on best practice for individual pupils to ensure those most vulnerable to poor attainment are to fulfil their academic potential.

Religion and Belief

Data is not collected for monitoring purposes on Religion and Belief, and so there is no information available to compare the attainment of pupils who have/or do not have a religion or a belief. Dilton Marsh Church of England Primary School recognises how important faith and belief can be as part of a young person's developing identity, whether this relates to a specific faith or belief, or whether this relates to wider belief systems, morals and ethics.

Dilton Marsh Church of England Primary School is committed to supporting all our young people as they develop a personal relationship with their own values and beliefs, and to supporting, in the context of the Human Rights agenda, the role this plays in the moral and ethical choices they make in life.

This school takes incidents of prejudice-related bullying seriously and is committed to working closely with parents/carers to create a school environment which is nurturing, friendly and supportive for all our children. Our school has established a procedure for recording all incidents of prejudice-based bullying, and this includes bullying related to religion and belief. Comments from young people about bullying include the following, "Encourage and celebrate difference – don't single us out if we are different, have difficulties, or have different beliefs and views", the Wiltshire Anti-Bullying Charter. <https://www.wiltshirehealthyschools.org/core-themes/emotional-health-and-wellbeing/anti-bullying-practice/> This school is vigilant in maintaining an awareness of, and appropriate responses to, this possibility. Dilton Marsh Church of England Primary School is aware that negative faith-based media attention can have an impact on all children, and recognises the importance of ensuring that pupils are provided with accurate and appropriate information. Dilton Marsh Church of England Primary School ensures that all pupils gain knowledge of and respect for the different faiths in Britain as part of our role to prepare pupils for modern life in a diverse Britain. As part of a whole school activity, pupils celebrate different religious festivals and learn from religious representatives from various communities.

Dilton Marsh Church of England Primary School recognises that discrimination on the grounds of religion or belief is a global concern. This school is aware that Islamophobia (discrimination or prejudice against people because they are Muslim or Jewish) is increasing and that it displays many of the same traits as racism. This school will continue its work to inform and actively promote acceptance and respect. Nationally, between 2015/6 and 2016/7 there was an increase of 37 per cent in the numbers of faith or belief based incidents reported to the Police either on school property or near to school property.^{vi}

Gender Identity and Sexual Orientation (LGBT)

For church schools:

This school has benefited from the work undertaken by the Church of England and published in the document “*Valuing All God’s Children*”.^{vii} This excellent document provides a framework that helps our school to address all issues of bullying behaviour and discriminatory language, and includes homophobia, biphobia and transphobia.

Disability (Special Educational Needs and Disability)

SEN pupils are categorised as 'SEN with a statement or Education, health and care (EHC) plan' and 'SEN support'. In Wiltshire in 2017, 16% of pupils at the end of key stage 2 have a special educational need and 3% with a statement or education, health and care plan.^{viii}

Of all reported characteristics, pupils with SEN have the largest attainment gap when compared to those without any identified SEN.^{ix} In 2017, 19% of Wiltshire pupils with SEN reached the expected standard in all of reading, writing and mathematics, compared with 68% of Wiltshire pupils with no identified SEN, resulting in an attainment gap of 49 percentage points.^x

Dilton Marsh Church of England Primary School is required to publish information on the attainment of SEN pupils. The focus of this section of this Equality Information document is disability. The disability areas being highlighted in this report have been adapted to reflect our current pupil profile. *Please note that as schools must adhere to data protection protocols in order not to breach the confidentiality of individual or small groups of pupils, this may mean that our school is limited in the data it is able to publish in this section.*

SEND Pupils and the link with Poverty

This school is aware that there is a strong link between poverty and disabilities that negatively impact on educational attainment.^{xi} Children from low-income families are more likely than their peers to be born with inherited special educational needs and disabilities (SEND), are more likely to develop some forms of SEND in childhood, and are less likely to move out of SEND while at school. Also, children with SEND are more likely than their peers to be born into poverty, and, in addition, more likely to experience poverty as they grow up.

Dilton Marsh Church of England Primary School has made the achievement of pupils with SEND a whole school priority and is supported with expert advice from our SEND education specialists. Dilton Marsh Church of England Primary School also knows that a strong partnership with parents/carers is important, and will continue to work collaboratively to support parents/carers as they seek to provide their children with a stimulating home-learning environment.

Pupils with Mental Health Concerns

There is an increasing understanding of the negative impact of social, emotional, and mental health difficulties (SEMH) on the educational attainment of pupils. The incorporation of mental health into the Equality Act 2010 has helped to highlight this important issue.

Dilton Marsh Church of England School has decided that one of our new Equality objectives will address pupil mental health and wellbeing as part of our commitment to preventing mental health difficulties that may start in childhood but have a greater impact on life.

EQUALITY OBJECTIVES

Schools are required to update their published Equality Information each year, and in addition, must have **at least one Equality Objective** that the school can focus and work on for a period of up to four years. Below are some suggested Equality Objectives that you may wish to pursue. The suggested objectives have been developed to reflect current priorities, *however*, schools can choose an equality objective that meets the needs of their particular school community.

An objective is about change. It should be specific, measurable, achievable, relevant (realistic) and time-bound (SMART), expressed in terms of people and outcomes, and set towards achieving a long-term goal. This means objectives focus on outcomes - real, practical change that can be expressed in terms of improvements.

Equality Objective:

1. Increase Understanding of religious/faith diversity

A current focus for Dilton Marsh Church of England School is to ensure increased understanding of religious/faith diversity (including people who do not have a faith) and to develop an awareness of the history of religious intolerance in Britain and Europe and to learn to promote tolerance and understanding. This will be achieved by our values driven curriculum.

2. Anti-bullying

Dilton Marsh Church of England School is committed to addressing all issues of bullying behaviour and discriminatory language and this includes homophobia, biphobia and transphobia. We focus on this objective throughout the academic year but also have weeks during the year given over to a sharper focus. We will record and analyse all bullying incidents throughout the academic year. Our school values are embedded throughout the curriculum and conduct expected of everyone within the school and there is a zero tolerance ethos surrounding bullying and discriminatory language.

3. Pupil mental health and Wellbeing

Academic attainment is important, but so is the need for pupils to progress through their education feeling happy and self-confident. Dilton Marsh Church of England School is committed to providing a nurturing environment to help develop the resilience of our pupils to cope with the ups and downs and stresses of everyday life. Dilton Marsh Church of

England School has decided that one of our new Equality Objectives will address pupil mental health and wellbeing as part of our commitment to preventing mental health difficulties that may start in childhood, but have a greater impact in adult life.
